

Assessment Consultancy Services

Supporting you to deliver better assessment practice

Introduction

If you are looking to improve your team's assessment skills in response to a recent Ofsted inspection, requiring help to implement Assessing Pupil's Progress (APP) in your place of learning, need support with strengthening assessment practice for the local assessment requirements of the Diploma, or are simply looking for ways to bring greater consistency in assessment between subject areas or schools, then the Chartered Institute of Educational Assessors (CIEA) could help.

The CIEA can provide you with bespoke assessment consultancy tailored to your own individual requirements that can enable your place of learning to develop, deliver or improve assessment-specific policy, practice and strategy.

Consultancy can be carried out locally and facilitated either directly by the CIEA or by an independent Chartered Educational Assessor (CEA), an individual who has been accredited by the Institute.

See the feedback from recent consultancy sessions:

'This was an extremely useful session in a very practical way and the hands on session was excellent.'

'A very thought-provoking two days.'

'Informative, rigorous, purposeful, empowering. I learned a great deal about myself despite thinking I knew a great deal about assessment.'

'Challenging but enjoyable. Thank you!'

'A very challenging and interesting two days, with a good mix of individual and group tasks, as well as presenters who brought a wealth of information to the two days.'
